

Gold Crew[®] P₂ Cleaner and Degreaser

Gold Crew P₂ line of cleaning agents is designed to give you the effectiveness of a solvent, the gentleness of a dishwashing detergent and the bio-enhancing ability of a biosurfactant. The Gold Crew P₂ lines of cleaning products are designed for use in field environments where not only the cleaning agent must be environmentally sensitive but so should the resulting effluent. Use on tanks, wet-wells, floors, equipment, bilge areas and more. Excellent on stainless steel. Always use this product in accordance with state, federal and local rules and regulations.

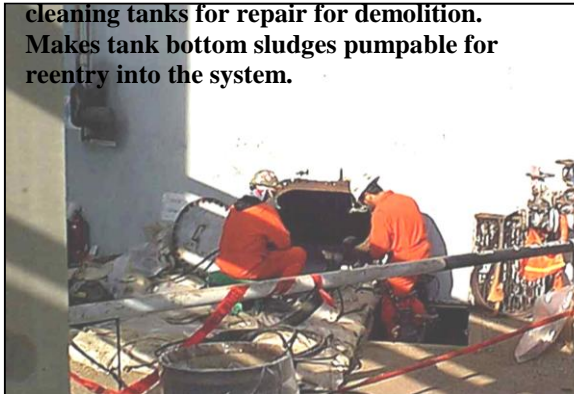

Dispose of rinsate properly

This product comes in ready to use, and concentrate

Unlike the many harsh degreasers, **GoldClean P₂** contains no dangerous caustics, de-limonene or solvents

GoldClean P₂ allows vapor suppression while cleaning tanks for repair or demolition. Makes tank bottom sludges pumpable for reentry into the system.
